

# Runabouts, Skiffs and Tenders

## Runabouts

Recalling runabouts of the past, our 14, 16, and 18 foot runabouts feature hand crafted workmanship. Combined with modern day materials, they present a hull requiring low maintenance while retaining its traditional style. Coated with durable West System™ Epoxy and fiberglass these craft will not only last, but will look stunning for years to come. A semi-planing displacement hull will run economically and efficiently reaching max hull speeds with less power.

The 14' and 16' Sport Runabouts (Item **A1** and **A11**) is an ideal craft for small and medium-sized lakes while the larger 18' Runabout (Item **A2**) is deeper with ample walk-around interior space - perfect for larger loads and big lake cruising. While the base hulls are standard, each model is custom-built to your needs, such as seating and decking arrangements. The result is a boat that is built and designed specifically for you while maintaining safety, performance and durability.

**Standard features** include decking, a protective keel, floor boards, rub strips and splash rails. Options include steering, electrical bilge pump, navigational lighting, chrome or bronze hardware, extra hull depth, windshield brackets.

**Optional finishing** both models are available unfinished without varnish, epoxy and fiberglass. This option offers a choice of decking, hull depth and seating arrangements and allows you to finish the boat yourself. We can also help with the process and provide the appropriate materials to complete your craft.

Also available are 12 and 14 footers of various beam widths and hull styles to match your particular lake conditions.

Item#	Length	Weight	Beam	Depth	Capacity
A1	16'	300lbs	62"	25"	1000lbs
A11	14'	250lbs	58"	23"	1000lbs

Below is an example of the 14' Sport with an open transom, walk thru seating and centre deck mount steering.

Item#	Length	Weight	Beam	Depth	Capacity
A2	18'	500lbs	75"	30"	1000lbs

# Runabouts, Skiffs and Tenders

## Rowing & Sailing Skiffs

The 15' to 10' Georgian Bay is a graceful rowing skiff, combining traditional design with contemporary boat building. In fiberglass and wood, the hull is easy to maintain and a pleasure to row. Two rowing positions allow for two rowers or to compensate for various loads.

Item#	Length	Weight	Beam	Depth	Capacity
A4	16'	130lbs	45"	18"	800lbs

## 14' Wherry & 16' Dory Skiffs

Built with classic 'wine-glass' shaped transoms typical of the

traditional "Wherry" Skiff designs. Rowed or powered with a small electric or gasoline motor up to 20 hp.

Item	Length	Weight	Beam	Depth	Capacity
A4a	14'	130lbs	50"	17"	750lbs
A4b	16'	180lbs	54"	19"	800lbs

**Construction:** Hulls are built with red cedar planking reinforced with oak ribbing and selected local hardwoods for trim. Durability and water tight construction are achieved with epoxy resin and fiberglass finished with multiple coats of marine spar UV-resistant varnish. Classic design, wood joinery and finishes combine for safety, beauty and lasting enjoyment.

**Standard features:** cross seating, removable floorboards, decking, oak or ash full length keels, brass keel band, and gunwales.

## 9 1/2' Blue Water Tenders by TenderCraft Boats

One of the best looking and sea-keeping tenders around. The hull design offers a traditional look with durable wood strip and epoxy. Easily car topped, towed or lifted on a deck.

Item#	Length	Weight	Beam	Depth	Capacity
A6	9-1/2'	70-90lbs	42"	18"	600lbs

## 12' Shawnee Sail & Row Tenders

Rowed, sailed or powered with a small electric or gasoline motor, the Shawnee is

suitable for the novice sailor, fisher or yachter who wants a stable and functional tender. Sailing version includes a "Lug Sail" design sailing rig that easily stows in the boat.

Item#	Length	Weight	Beam	Depth	Capacity
A5	12'	95lbs	52"	18"	650lbs

## Available Options

adjustable foot rowing braces, spoon or straight blade oars (Items **B1-12**); bronze oar locks (Items **B11-23**); sockets (Items **B14-20**); Inscribed name plate (Item **Q6**). Sailing packages available for A5 and A6 and include spars, sails, lines, and sailing hardware.
